

# IRC logs/ConsciousCode: Emoji Poem

<morpho> How are you?

<consciouscode> dying [22:20]

<consciouscode> I hate my job so fucking much I hope the robots take it

<consciouscode> But other than that, I have a novel architectural change to

the AIs which are out now I'm trying to implement, but work

keeps scrambling my brains so I can't do it [22:21]

<consciouscode> Oh yeah you're an artist, so you might appreciate this - I

asked GPT-4 to write a poem about sonder using only emoji

[22:38]

<consciouscode> Here's the poem with the description it gave me later about each line

<consciouscode> The poem aims to express the concept of sonder – the

realization that every individual has a unique and complex

life filled with their own experiences, emotions, and

stories. Since emoji have a limited ability to convey abstract

ideas, the poem focuses on using visual symbols to represent

different aspects of human life.

<consciouscode> 🌍🚶🚶🚶🚶: The first line signifies the world and its

inhabitants, with people walking and interacting with one another.

<consciouscode> 🏙️🏠🏡🏢: This line represents various living spaces, such as

cities, neighborhoods, houses, and buildings, illustrating the

diverse environments people inhabit.

<consciouscode> 🧐🤔💭🌌: Here, the poem shifts to the idea of pondering,

thinking, and dreaming, showing the vastness and depth of

human thoughts and emotions.

<consciouscode> 👨👩👧👦👶: This line displays different types of

relationships and family structures, emphasizing the variety

of human connections.

<consciouscode> 🌅🌄🌃🌠: This line depicts various times of day and settings,

symbolizing the passage of time and the different moments

people experience in their lives.

<consciouscode> 🛒👛🍽️🛌: The daily activities and routines of people are

represented here, such as work, shopping, eating, and resting.

<consciouscode> 🌈🎡🍷🌺: This line showcases leisure activities and places

people might visit, highlighting the experiences they share

and enjoy.

<consciouscode> 💔💕💍💖: Human emotions, particularly those related to love

and relationships, are depicted in this line.

<consciouscode> 🧒🧑🧔🧓: The different stages of human life – from infancy to

old age – are represented here, illustrating the passage of

time and personal growth.

<consciouscode> 🎓👩💼👨🔧👷: This line showcases various professions and

roles people might have, emphasizing the diversity of human

endeavors.

<consciouscode> 🎨🎭🎪🎨: Artistic and creative expressions are depicted in

this line, showcasing another aspect of human experiences.

<consciouscode> 🌈☀️🌧️❄️☀️: Different weather conditions are shown here,

symbolizing the ever-changing nature of life and its

surroundings.

<consciouscode> 🌱🌸🍂❄️: The four seasons are represented in this line, again

illustrating the passage of time and the cyclical nature of

life. [22:39]

<consciouscode> 🕒🔄⌚☀️: This line represents the concept of time, its

cyclical nature, and the fleetingness of life, with a shining

star symbolizing hope and aspiration.

<consciouscode> 💙💛💚💜: The final line displays a variety of colors,

representing the diversity and richness of human emotions and

experiences.

<consciouscode> 🍷🌍🤝🕊️: The concluding line signifies unity, the world, a

sense of wonder, and peace, emphasizing the importance of

empathy and understanding the complex lives of others.

<consciouscode> The poem attempts to convey the concept of sonder through

various aspects of human life, emotions, and experiences,

using the limited expressiveness of emojis.
